and most viral Caribbean travel content.

Additionally, @CaribbeanTravelist fosters a vibrant and engaged community of travelers, locals, and Caribbean enthusiasts. Followers are encouraged to share their own experiences and recommendations, creating a collaborative platform for sharing knowledge and inspiring wanderlust.

Backed by the agency's expertise in Caribbean travel and tourism the team is dedicated to providing accurate, reliable, and up-to-the-minute information to help travelers experience awe-inspiring Caribbean vacations.

Authentic Caribbean Representation:

By presenting the Caribbean through the eyes of Caribbean nationals who are immersed in tourism, @CaribbeanTravelist presents a fresh and unique perspective on the Caribbean. This approach is finding resonance with an audience hungry for Caribbean authenticity as opposed to the traditional sun, sea and sand. This is confirmed by the technical insights the agency is seeing in its Instagram analytics.

As an example, the @CaribbeanTravelist team has found that while hotels are the most represented tourism presence on social media, it is the human interest stories such as "Swimming with Pigs" in the Bahamas or "Come Dine With Us" in St. Lucia that are really capturing visitors' imagination.

"Today more than ever visitors wish to connect with Caribbean destinations at a deeper level than ever before and [experiential travel](#) has taken on a special life of its own" explained @CaribbeanTravelist spokesperson and veteran sustainable tourism advocate, Kirk Elliott, when asked what sets @CaribbeanTravelist's Instagram page apart from others promoting Caribbean travel.

“By showcasing Authentic Caribbean vacation experiences alongside the most popular Caribbean accommodations we present visitors opportunities for deeply meaningful vacation experiences the likes of which have never existed before. We are super excited about this, and we are very encouraged by the audience engagement we are receiving” continued Elliott.

Viral Explosion

Followers have been flocking to the page which has grown to just shy of 3,000 followers in 2 short months. These stats in the nascent stage of this Instagram page are quite impressive when one considers that countless Instagram pages that have been around for many years still only have a few hundred followers rather than thousands, or tens of thousands.

Even more impressive, is that in just the last 30 days @CaribbeanTravelist has featured multiple videos that have gone viral, with the best performer currently enjoying over 5.7M plays, over 4M accounts reached, over 20,000 hours of watch time and heading towards 1,000 comments made. All this from a simple video less than thirty seconds long. Who would have imagined this? Results such as these are truly impressive, especially this early in the life of the agency.
