

MethodHub to host Cyber Security Conference in Bangkok, Thailand

MethodHub to host Cyber Security Conference in Bangkok, Thailand

BANGKOK, THAILAND, March 21, 2024

/EINPresswire.com/ -- MethodHub is hosting a conference on "Securing Tomorrow: Navigating Cyber Threats" on March 22nd in Bangkok, Thailand.

The event will feature an esteemed panel of [cybersecurity](#) experts from the USA who will discuss and offer solutions to handle cyber threats to modern businesses and deliver managed enterprise [security](#)

solutions. Commenting on the upcoming event,

Dinesh Agaskar, Head of MethodHub South East Asia stated, "We have a strong customer base in Thailand and our mission is to safeguard organizations against cyber-attacks by delivering reassurance and IT security."

“

Loss due to Cybercrimes would rank 3rd in terms of GDP, if it were a country, after USA and China.”

Natraj Subramanian

“With the proliferation of digital technologies and end points, [Cyber Security](#) is a growing concern for businesses worldwide and what keeps the CIO awake. At MethodHub, we are dedicated to empowering organizations with robust cyber security solutions. Our partnership with Secure Traces demonstrates our commitment to staying ahead of evolving cyber threats," said Aho Bilam President and CEO.

In addition to offering solutions, MethodHub also offers consulting services to companies implementing products like SailPoint, ForgeRock, SentinelOne, CrowdStrike, LogRhythm, Google Chronicle, etc.

“MethodHub's collaboration with Secure Traces, a leading cybersecurity firm, underscores our joint commitment to fortifying organizations against cyber threats. With a focus on the PIMA (Prepare, Identify, Mitigate, Avoid) approach, MethodHub provides the global reach and customer access to implement Secure Traces' solutions with enterprise customers” said Natraj Subramanian, CEO of Secure Traces.

MethodHub brings a wide range of cybersecurity services to enterprises (including but not

limited to Identity and Access Management (IAM), Vulnerability Assessment and Penetration Testing (VAPT), Intrusion Detection and Prevention Systems (IDPS), Endpoint Detection and Response (EDR) & Security Information and Event Management (SIEM) empowering them to tailor their security programs based on specific risks and requirements. "MethodHub tailors security programs based on the business's specific risks and requirements and helps the organization navigate the complex cybersecurity landscape, delivering traceability and reassurance" said Sudeep Dewan, EVP of Project Services.
