GHST World Inc.

A Greener Future with InSSIDe World Inc.

InSSIDe World Inc. is at the forefront of constructing clean energy power plants, focusing on renewable sources such as photovoltaic and hydroelectric power. This initiative is not just about energy production; it's a commitment to environmental stewardship and innovation, offering a range of services from site due diligence and acquisition of surface rights to the design, implementation, and financing of feasibility plans, culminating in the turnkey installation of plants and their connection to the public grid.

Strategic Investments for Sustainable Development

With the goal of becoming a major electricity producer, InSSIDe World Inc. aims to install 100MW of plants in the next two years, starting with an 8MW tranche fully operational by the end of 2023. This ambitious project is supported by GHST World Inc.'s robust shareholder base and financing strategies, including investment funds and private investments, leveraging the company's position on the US markets to offer attractive returns.

Innovative Solutions for a Secure Future

Beyond energy, InSSIDe World Inc. is enhancing cybersecurity and productivity through its

innovative Integrated Risk Management System, InSSIDe Protection, which incorporates Artificial Intelligence and resilience into software architectures. The company also excels in investigative analysis, security, and training, offering courses in Environmental Crime and Terrorism Intelligence in collaboration with esteemed partners.

Certification and Compliance: A Commitment to Excellence

InSSIDe World Inc. provides comprehensive certification services, ensuring compliance with national and international standards. The company facilitates the entire certification process, from in-house implementation of ISO-compliant management systems to third-party audits and certification issuance, emphasizing the importance of updating ISO/IEC 27001 certifications to meet the latest standards by April 30th, 2024.
