

Adaptive Construction Systems Launches New Rapidly Deployable Affordable Housing Solutions

Adaptive Construction Systems, a leading provider of innovative modular homes, the launch of six new models product lineup manufactured at scale in our factory.

SWEETWATER, TN, USA, March 21, 2024

/EINPresswire.com/ -- Adaptive Construction Systems, a leading provider of innovative modular homes, is proud to announce the launch of six new models in their extensive product lineup. These models are manufactured at scale in our factory, leveraging cutting-edge technology and a revolutionary approach to construction.

“

Adaptive Construction Systems, we are revolutionizing the way homes are built. Our 10 new models represent a significant milestone in our delivering innovative and affordable housing solutions”

Jay Heins

Designed to meet the growing demand for adaptable and affordable housing solutions, our new models offer unparalleled flexibility, durability, and energy efficiency. The 10 new models - Adaptive 200 & 240, Adaptive 400 & 480, Adaptive 600 & 720 , and Adaptive 800 & 960 & The Adaptive 1200 or 1340 - showcase Adaptive Construction Systems' commitment to craftsmanship, innovation, and delivering high-quality homes that cater to a wide range of homeowners.

Key Features of the New Models:

- **Adaptability:** Designed for Accessory Dwelling Units (ADUs) and affordable housing, these models adhere to FHA and HUD mortgage guidelines, ensuring accessibility for everyone.
- **All models are built to exceed IBC Building Code.**
- **Energy Efficiency:** Featuring a full steel roof, R30 insulation, and a fully sealed subfloor, our homes prioritize energy efficiency and stability.

- **Durability:** Manufactured using MGO, US steel, and US labor, our homes are bug, fire, water, mold, and moisture resistant.
- **Fast Deployment:** With our Factory produced units build times are reduced significantly compared to traditional construction methods.

"At Adaptive Construction Systems, we are committed to revolutionizing the way homes are built. Our five new models represent a significant milestone in our journey towards delivering innovative and affordable housing solutions," said Jay Heins, Sales Director at Adaptive Construction Systems. "By producing these models at scale in our factory, we are able to meet the growing demand for housing while maintaining the highest quality standards."

Each model is meticulously crafted to meet the unique needs of homeowners, offering a seamless construction system that transforms designs into reality. With the addition of these new models, Adaptive Construction Systems continues to set new standards in the industry, providing a range of options that can be easily customized to suit various preferences and budgets. With the move in ready models from \$119 SQFT, we have generational quality construction at a price everyone can afford.
