Gartner

Established in 2023, VEREVALID has emerged as trailblazers, pioneering transformative solutions in Data Science, Analytics, and Supply Chain Mastery, with a clear mission to equip decision-makers with the insights and strategies imperative for success, both today and tomorrow.

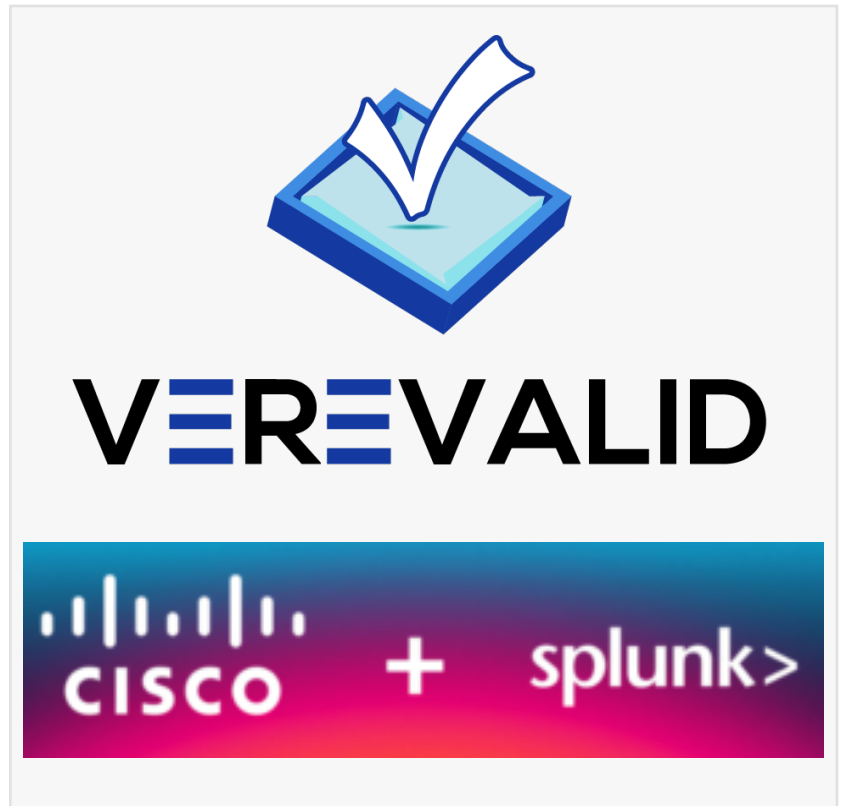

The recent acquisition underscores a significant milestone in the business sphere. However, amidst change, VEREVALID's steadfast commitment to delivering exceptional service and value remains unwavering. The partnership agreement with Splunk remains intact, signaling continuity and reliability amidst transition.

In an era saturated with data, knowledge reigns supreme. Through cutting-edge Data Science and Analytics solutions, VEREVALID unlocks the latent potential of data, illuminating hidden opportunities and guiding strategic decisions with unparalleled precision alongside Splunk's

robust security solutions.

Understanding the pivotal role of a resilient supply chain in today's interconnected world, VEREVALID specializes in Supply Chain Mastery. Leveraging advanced techniques and strategic foresight, we streamline operations, enhance efficiency, and foster sustainable growth.

From Cloud Computing to Electronic Data Interchange (EDI), from Custom Software Development to Quality Assurance (QA), VEREVALID offers a comprehensive suite of services to address every facet of business needs.

"At VEREVALID, we transcend the role of mere innovators – we are architects of transformation," remarks Prasanna Soodamani, Founder & Director at VEREVALID. "Every decision we make, every solution we provide, is propelled by an unwavering commitment to our clients' success. Partnering with us means more than acquiring a service provider – it signifies gaining a strategic ally, dedicated to realizing your boldest ambitions."

Deliberating the next steps for your business, consider joining the league of industry leaders who have entrusted their future to VEREVALID. Together, let's redefine the realms of success and chart a course towards a brighter tomorrow.
