Cabrini Lesson Plans

“*Cabrini* brings history to life,” said author Katie Mooney. “As educators, we strive to engage our students and long to see them happily, and actively, participating in their own education.”

“

Cabrini brings history to life.”

Author Katie Mooney

With this lesson plan, my hope is that the educator and students, together, can not only enjoy learning about this era of history, but learn that despite whatever is up against them, they, like *Cabrini*, can find the strength to conquer their own setbacks and push to make the world a better place.”

These pre-watch and a post-watch lesson plans aid learning about the history of Italy and New

York, the basic elements of film, three social reformation movements during Cabrini's time, and the music of her era. Students will learn through a variety of styles, including question-led discussions, writing film reviews, and photography studies.

These comprehensive, easy to use guides include assets for the instructor as well, including a historical essay with grading rubric, a film review with grading rubric, and discussion questions on the film, historical context, and the art of the time. The Cabrini Lesson Plans are endorsed by educators, authors, a school district writing mentor, and a historian.
