KMG, known for its expertise in property and casualty (P&C) insurance, brings a wealth of experience in IT and digital services delivery. With a focus on helping companies navigate their digital transformation journey, KMG is well-positioned to assist insurance providers in leveraging cutting-edge technology effectively.

"OpenDialog is dedicated to empowering companies in the insurance industry with innovative conversational AI solutions that improve efficiency, and enhance customer experience while maintaining compliance," said Dean Chapman, Chief Commercial Officer at OpenDialog. "Through our partnership with KMG, we aim to provide US based insurance businesses with the technology and

strategy they need to stay ahead in a rapidly evolving digital landscape."

"This strategic partnership between OpenDialog and KMG represents a significant step forward in leveraging AI-driven automation and insights and modernizing business operations in the insurance sector," stated Ravendra Singh, EVP & Insurance Practice Head at KMG. "Together, we are committed to empowering insurance providers with scalable and compliant conversational AI solutions, enabling them to deliver exceptional customer experiences while meeting regulatory requirements."

The collaboration between OpenDialog and KMG promises to bring forth innovative solutions that set a new standard for AI integration in the US insurance market.
