HYDERABAD, TELANGANA, INDIA, March 23, 2024 /EINPresswire.com/ --

[Quixy](#), a leading no-code low-code workflow automation platform, has recently announced that it has been awarded the Great Place to Work certification for the second time. More than 3/4th of Quixy's workforce has shared that Quixy is a great place to work, which is significantly higher than the average among tech companies.

A Great Workplace is defined by four qualities: Employees trust the people they work for, take genuine pride in their work, enjoy collaborating with their colleagues, and experience a consistent workplace atmosphere, irrespective of their role, identity, or position. Companies that meet the GPTW certification are far more successful at retaining, recruiting, and engaging employees than at the average workplace, with 93% of employees expressing eagerness to come to work.

Quixy is within touching distance of India's Top 100 Great Mid-Size Workplaces benchmark, an impressive score of 88. Quixy's results include the following highlights:
