Erika's fascination with the interplay of light and the ethereal beauty of the underwater world has birthed her love for underwater fine art photography. Capturing the majesty of the ocean, her lens unveils hidden depths, revealing a beauty that transcends the surface.

“

Between Worlds is the essence and the breath throughout all my photographic work. It's a place where the viewer can explore and unveil the beauty of the unseen possibilities of this life and eternity”

Erika Masterson

Her portfolio transcends mere landscapes or animals, transforming into captivating fine art photography that speaks directly to the soul. Mastery of black-and-white photography highlights the powerful contrast between light and shadow, leaving viewers in awe and wonder.

Digital fine art photography showcases the ethereal beauty of flowers in full bloom, each image encapsulating the

essence of the artwork, perfect for interior design or as part of an art exhibition.

Venturing beyond the underwater world, Erika explores the surreal and dreamy realms of nature and relationships. Her contemporary fine art photography embraces life's simplicity, creating timeless minimalist snapshots that tell stories beyond words.

“What is this mystery that we seek? This hidden knowing, pulling at our hearts. The sense of not belonging to this world, but another—And there in the tension of our struggles, we find a divine mingling of two worlds.

I create images for another glimpse into this mystery, where the tension of change and surrender of heart see the hidden and unknown. With my photographs, I hope to evoke an awareness of one’s own journey through our natural longing to connect with nature. That connection is what I seek to bring into existence in my images, where “inner self” is unveiled through vulnerability. The layering of my images, portraits blended with natural elements, embodies that divine connection.”—Erika Masterson
