AVC-News on Apple App Store
https://apps.apple.com/at/app/avc-news/id6477570540

AVC-News is tailored for users interested in cybersecurity insights, antivirus testing, and industry trends. With the new version, users can expect even greater convenience, performance, and utility on their preferred devices.

Key Features of the AVC-News App:

- Instant Updates provide the latest information, test reports and other articles from AV-Comparatives.
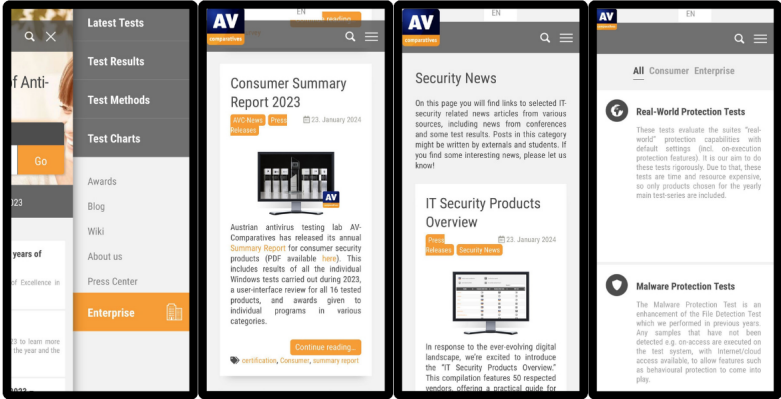

- Interactive Charts visualize data and trends in interactive graphs and provide deeper insights into antivirus performance and developments in the industry.

- Test Methodologies, used by AV-Comparatives to evaluate antivirus software, are described in detail and show the strict criteria of the evaluations.

- Awards Overview about awards bestowed upon each vendor will assist in making educated choices when selecting a security solution.

- IT Security Tips and best practices to safeguard digital assets, accessible on both Android and iOS devices.

- AV Vendors Overview of antivirus product providers across various platforms, assisting in selecting the right security solutions.

Updated "AVC-News" App for Android and iOS

Logo AV-Comparatives

Whether for cybersecurity enthusiasts, IT professionals or the curious, the AVC News app is your gateway to up-to-date and reliable information on the latest developments in the industry on Android and iOS platforms.

The AVC News app can be downloaded free of charge on Google Play Store for Android devices and on Apple App Store for iOS devices.

About
AV-Comparatives is an independent organisation offering systematic testing to examine the efficacy of security software products and mobile security solutions. Using one of the largest sample collection systems worldwide, it has created a real-world environment for truly accurate testing. AV-Comparatives offers freely accessible av-test results to individuals, news organisations and scientific institutions. Certification by AV-Comparatives provides a globally recognised official seal of approval for software performance.
