

# AmSoS: Elevating School Security, Crafted by Softexploit, Presented by BE Smart - Empowering School Safety in Germany

*Ensuring Fast Response to Emergencies in Educational Institutions - Developed by Softexploit, Launched by BE Smart, Overseen by German Education Government.*

LONDON, UNITED KINGDOM, March 26, 2024 /EINPresswire.com/ -- In a groundbreaking collaboration, Softexploit, a leading software development company based in London, England, has partnered with BE Smart, a forward-thinking startup, to introduce AmSoS in Germany.

The German Education Government has committed to governing and overseeing this initiative, signifying a monumental step towards enhancing the safety and security of educational institutions in Germany.

Revolutionizing School Security with AmSoS: AmSoS aims to revolutionize school security by enabling swift responses to emergencies. The app provides teachers with a fast response software system, allowing them to inform all stakeholders immediately in life-threatening situations such as shooting sprees. This proactive approach to security ensures that potential dangers are detected early, and appropriate actions can be taken promptly.

Key Features:

Softexploit

We prioritize excellence in our software solutions. With AmSoS being non-profit, we develop it to the highest standards, ensuring uncompromised safety and security.”

*CEO, MD Mahir Tazwar*

\*Tailored School Management Web App Panel: AmSoS offers personalized control and oversight of security measures through management panels for each school.

\*User-Friendly Apps: AmSoS Apps prides itself on its intuitive Android and iOS applications, meticulously crafted to prioritize user-friendliness and accessibility for all members of the school community.

\*Crisis Team Integration: A specialized section for crisis

team agents of each educational institution facilitates swift and coordinated responses during emergencies.
