Tashi Partners with Polygame to bring Web3 to E-Sports

Tashi, a pioneering platform in the Web3 ecosystem, is thrilled to announce its strategic partnership with Polygame, the leading AI-driven E-Sports Platform.
SINGAPORE, March 27, 2024 /EINPresswire.com/ -- Tashi, a pioneering platform in the Web3 ecosystem, is thrilled to announce its strategic partnership with Polygame, the leading AI-driven E-Sports Platform. Operating with 5 Million Monthly Active Users across Indonesia and Southeast Asia, Polygame will utilize the Tashi Consensus Engine to revolutionize the gaming and E-Sports industry.

This partnership will focus on leveraging Tashi's advanced blockchain technology and Polygame's expansive gaming ecosystem to introduce novel features, enhance user experience, and drive unparalleled growth within the gaming community.

Having built the fastest consensus algorithm in the Web3 ecosystem, capable of processing 1 Million + Transactions Per Second with latency below 100 milliseconds, Tashi is enabling decentralized networks for leading industry players.

Powering the Future of Gaming

Decentralized Networks for Everyone

WatchIt.OwnIt.EarnIt

Polygame stands as the first AI-driven E-Sports Social Media Platform, boasting live streaming,

and a vibrant Gaming Metaverse. With ambitions to connect over 1 billion gamers worldwide, Polygame is rapidly expanding its footprint across 8 countries in APAC, India, and the Middle East by the year's end. The platform currently hosts 122 exclusive and 370 non-exclusive Esports/Gaming Content creators, with a substantial Annual Recurring Revenue (ARR) of 1.8 Million USD. Moreover, Polygame has partnered with Indonesia's leading Telco's Telkomsel and XL Axiata and has a thriving community.

Concurrently, Tashi and Polygame have ongoing discussions with leading Blockchain Layer 1's to be their Mainnet for their community tokens. This will capitalize on their exponential growth and innovation in the Esports sphere. "Tashi has been building the guard rails for Web3 Infra for the last 2 years and is excited to bring mainstream Web2 users into the Web3 fold with our highly performant engine." said Sandeep Singh, Co-Founder and CEO of Tashi.

About Polygame

Polygame is revolutionizing the gaming and Esports industry as the premier AI-driven Esports Social Media Platform. With a comprehensive suite of features including live streaming, and a dynamic Gaming Metaverse, Polygame aims to connect and empower gamers worldwide.
