"Often, founders wonder why they should know about the laws impacting their business. Wouldn't it be better to simply hire a lawyer to take care of the legal requirements? But here's the thing: availing of specialized legal services is expensive and finding reliable legal services is difficult. This is why it is essential to gain at least an overview of the laws that impact your business, and the laws that you may need to resort to while dealing with other persons or companies. Business Law Essentials gives you a comprehensive overview of all laws that you may become subject to, in the course of carrying on and running a business," says Komal Shah.
