

Assistive Technology Solutions for Students with Learning Disabilities in Europe 2020-2030 - Allied Market Research

The Europe assistive technology for students with learning disabilities market size was valued \$101.66 million by 2030

WILMINGTON, DELAWARE, UNITED STATES, March 26, 2024 /EINPresswire.com/ -- Learning disability can be defined as significant reduction in the ability to understand complex or new information; difficulty in learning new skills, and a reduced ability to cope independently. Various aspects in which individuals with

learning disabilities face problems include learning new things, reading, and writing. The modes of treatment available for various forms of learning disabilities include therapies, assistive technology tools, and handwriting training tools. The growth of the assistive technology for students with learning disabilities market can be attributed to annual increase in number of students requiring special education.
