

Polymer Emulsion Market is set to increase at 7.2% CAGR by 2030 to reach a Valuation of USD 47.77 billion

Polymer Emulsion: Increasing demand in coatings, adhesives, and textiles due to eco-friendly formulations and superior performance attributes.

LUTON, BEDFORDSHIRE, UNITED KINGDOM, March 26, 2024

/EINPresswire.com/ -- "The Polymer Emulsion Market is set to increase at 7.2% CAGR by 2030 to reach a Valuation of USD 47.77 billion. The market is expected to grow faster in the next decade. Stringent environmental standards imposed by governments around the world in response to the toxic nature of certain emulsion polymers have stifled market growth. Rising demand for high-quality colour paints, combined with increased residential infrastructure development, particularly in emerging economies, is expected to drive industry growth during the forecast period. Acrylics' ability to impart the property of quick-drying to paints has been the primary factor driving acrylic consumption around the world."

The [Polymer Emulsion](#) Market Size, Scope, and Forecast 2024-2030 report

has been added to the Market research collection of Exactitude Consultancy reports. The rise in infrastructure development and growth in the construction industry is driving the market for emulsion polymers. In addition, the increasing demand for environmentally friendly and biodegradable products is expected to boost market growth. The use of emulsion polymers in

Exactitude Consultancy

coating and other applications is preferred as they are non-toxic, biodegradable, and do not harm the environment. Furthermore, the use of emulsion polymers in the production of various textiles such as cotton, wool, and silk is expected to drive the demand.

The polymer emulsion market is expected to grow at 7.2% CAGR from 2023 to 2030. It is expected to reach above USD 47.77 billion by 2030 from USD 25.56 billion in 2023.

Other prominent players in the market include: Arkema Group, Asahi Kasei Corporation, BASF SE, Celanese Corporation, clariant, dic corporation, Dow Inc., Gellner Industrial LLC, Halltech Inc., Interpolymer Co. Ltd, momentive, Resil Chemicals Pvt. Ltd, Synthomer PLC, the lubrizol corporation, Wacker Chemie AG and other Prominent players.

Recent Developments

In October 2023, Asahi Kasei announced plans to invest in new coating equipment for its Hipore™ lithium-ion battery separators. The coating lines will be installed at the company's current facilities in the U.S., Japan, and South Korea, and operations will commence in the first part of fiscal 2026

With the help of the competitive analysis provided in the report, players can easily study the key strategies employed by leading players in the Polymer Emulsion Market. The major and emerging players of the Polymer Emulsion Market are closely studied considering their market share, production, sales, revenue growth, gross margin, product portfolio, and other important factors. This will help players familiarize themselves with the movements of their toughest competitors in the Polymer Emulsion market.

The report provides a detailed analysis of the Polymer Emulsion Market, covering the market size, growth, and key players. It also includes a comprehensive list of the major and emerging players in the market, along with their product portfolios and market share. The report is a valuable resource for players in the Polymer Emulsion Market, providing them with the latest market insights and helping them to make informed decisions.

Polymer Emulsion Market By Product Type, 2020-2030, (USD Billion, Kilotons)

- Acrylic
- Styrene Butadiene Latex
- Vinyl Acetate Polymers
- Polyurethane Dispersions

Polymer Emulsion Market By Application, 2020-2030, (USD Billion, Kilotons)

- Adhesive & Sealants
- Paints & Coatings
- Paper & Paperboard

Polymer Emulsion Market By End User, 2020-2030, (USD Billion, Kilotons)

Building & Construction

Automotive

Textile & Coatings

Polymer Emulsion Market Segments by End User/Region

Geographical Region & Continent: North America, Europe, Asia Pacific, Oceania, South America, geographical region & continent

Geographical Region & Continent: u. s., Canada, Mexico, Brazil, Argentina, Colombia, Chile, Nigeria, Tunisia, Morocco, Germany, uk (UK), Holland, Spain, Italy, Belgium, Austria, Turkey, Russia, France, Poland, Israel, United Arab Emirates, Qatar, China, Japan, Taiwan, South Korea, Singapore, India and Australia etc.

Asia Pacific dominated the market and accounted for a 33.06% share in 2023. The rise in construction activities, especially in emerging economies such as China, India, and Southeast Asia, is driving the demand for paints and coatings, which, in turn, is driving the demand for emulsion polymers. In addition, the Asia Pacific region is also home to some of the world's largest emulsion polymer manufacturers including DIC Corporation, China Petrochemical Corporation, KCC Corporation, and others who are investing in research and development to develop new products and technologies. This is further expected to drive the growth of the Asia Pacific market.

North America is anticipated to witness a significant CAGR in the forecast period. This growth owes to the nation's robust economy, favorable commercial real estate market fundamentals, and increased federal and state funding for infrastructure projects and institutional buildings, the construction industry in the United States continues to grow. The country's population growth is expected to increase demand for housing. Additionally, the US market held the largest market share, while the Canadian market was the fastest growing market in the region.

Exactitude Consultancy is a leading market research and consulting firm, providing comprehensive market research and consulting services to its clients. For more information, please contact us at:

Researcher's Strategic Activities: The researchers analyse recent strategic activities like mergers, acquisitions, partnerships, collaborations, and joint ventures.

Report Analysis: The report analyses the demographics, growth potential, and capability of the Polymer Emulsion market through the forecast period.

Market Size and Growth: Polymer Emulsion market size and also provides an outline about how the market will retrieve growth during the assessment period.

Investment Opportunities: The report focuses on the ongoing and upcoming investment opportunities across a particular Polymer Emulsion market that will help the stakeholders to be aware of the current investment scenario across the market.

Key Features:

- Major developments that can change the business landscape as well as market forecasts.
- Addition/refinement in segmentation-Increase in depth or width of segmentation of the market.
- Coverage of new market players and change in the market share of existing players of the Polymer Emulsion market.
- Updated financial information and product portfolios of players operating in the Polymer Emulsion market.
- Updated market developments of the profiled players.
- Any new data points/analysis (frameworks) which was not present in the previous version of the report

The new edition of the report consists of trends/disruptions on customer's business, tariff and regulatory landscape, pricing analysis, and a market ecosystem map to enable a better understanding of the market dynamics for Polymer Emulsion.

Report Customization Options:

- Country level market for Polymer Emulsion market (up to 5)
- Profiling and additional market players (up to 5)
- Up to 40 hours of customization.
- post-sales support for 1 year from the date of delivery.

Please contact our sales professional (sales@exactitudeconsultancy.com), we will ensure you obtain the report which works for your needs.
