

# Young Adult Cancer Patients Breathe Easier with New Air Purifiers

*Agentis Air Donates Brio In-Room Air Purifiers to the Ulman Foundation in Baltimore*

ROCKVILLE, MARYLAND, UNITED STATES, March 26, 2024 /EINPresswire.com/ -- Guests at the Ulman House in Baltimore can take a deep breath, knowing they are inhaling cleaner indoor air, thanks to a recent a donation of 15 Brio® air purifiers from

“

Airborne illnesses are the top cause of pneumonia in cancer patients....Having these Brio air purifiers in place will help reduce illness and give some peace of mind to our guests and their families.”

*LaTasha Fisher, Ulman House  
Manager*

Rockville, Maryland-based air purification technology company [Agentis Air](#). The Ulman House, part of the Ulman Foundation, provides free housing for young adult cancer patients and their caregivers.

[Brio air purifiers](#) are delivering a clean airflow in each of the nine guest rooms, as well as in the fitness center, family room, foundation room, music room, and game room. Together with three years' worth of replacement filters, the value of the in-kind donation is \$11,000.

Brio is designed to remove fine and ultrafine particles,

including viruses, mold, wildfire smoke, and dust, and is well-suited to facilities for those at increased health risks from PM 2.5 and other airborne pollution.

“Airborne illnesses are the top cause of pneumonia in cancer patients, which can then lead to a rapid, downward spiral of a diagnosis. Having these Brio [room air purifiers](#) in place will help prevent that from happening and give some peace of mind to our guests and their families,” according to Ulman House Manager LaTasha Fisher.

"Making this donation to the Ulman Foundation supports our company mission to improve indoor air quality — which is linked to long-term health, longevity, and productivity," noted Agentis Air President Larry Rothenberg. "Brio is highly effective, is Energy Star certified, and requires minimal maintenance, making it ideal for use at the Ulman House."
