

CloudDefense.AI is Back with Cloud Security Thirsty Thursdays: An Exclusive Event for Cybersecurity Enthusiasts

PALO ALTO, CALIFORNIA, USA, March 26, 2024 /EINPresswire.com/ -- In an ongoing effort to forefront the conversation around cloud security, [CloudDefense.AI](#) is bringing a new edition of Cloud Security Thirsty Thursdays, set to take place on Thursday, 4th April 2024, from 5:30 PM – 7:30 PM PDT at Hacker Dojo. This monthly event series continues to serve as a critical platform for professionals across the tech industry to explore the latest trends, challenges, and advancements in cloud security.

The distinguished lineup of speakers for this event includes Lakshmi Sudheer, Engineering Manager, Application Security at Netflix, and Raghu Dhulipala, Co-Founder & CEO at Sympti.

“

Cloud Security Thirsty Thursdays has continually served as a beacon for knowledge sharing and innovation within the cloud security space”

*Anshu Bansal, CEO of
CloudDefense.AI*

The event will begin with a delightful networking session from 5:30 to 6:00 pm, where attendees can mingle while enjoying delectable food and beverages. At 6:00 pm, the program will begin with a warm welcome message from prominent figures, including Anshu Bansal, CEO of CloudDefense.AI, Karthikeyan M, VP of Engineering at Portal26, and Suman Sharma, CTO of Procyon.

Following this, from 6:10 to 6:45 pm, Lakshmi Sudheer, Engineering Manager of Application Security at Netflix, will

delve into the evolving dynamics between security teams and the rest of the enterprise in her talk titled "From Gatekeepers to Partners: Transforming Security Relationships Within the Enterprise."

To conclude the evening, from 6:50 to 7:20 pm, Raghu Dhulipala, Co-Founder & CEO of Sympti,

will explore the critical topic of "Security in Healthcare: Navigating Challenges and Solutions for a Better Tomorrow," shedding light on the unique security demands within the healthcare sector.

Don't miss out on this fantastic opportunity to expand your knowledge of cloud security and connect with like-minded professionals.

Join CloudDefense.AI in their mission to empower the tech community with the knowledge and tools necessary for securing digital futures.

About CloudDefense.AI:

CloudDefense.AI, headquartered in Palo Alto, is a complete Cloud-Native Application Protection Platform (CNAPP) that secures the entire cloud infrastructure and applications. Considering the evolving threat landscape, they blend expertise and technology seamlessly, positioning themselves as the go-to solution for remediating security risks from code to cloud.

Experience the ultimate protection with their comprehensive suite that covers every facet of your cloud security needs, from code to cloud to cloud reconnaissance. Their catered-for cloud offering includes SAST, DAST, SCA, IaC Analysis, Advanced API Security, Container Security, CSPM, CWPP, CIEM, CDR, to the exclusive HackerView™ technology – CloudDefense.AI ensures airtight security at every level.

Going above and beyond, their innovative solution actively tackles zero-day threats and effectively reduces vulnerability noise by strategically applying various modern techniques. This unique approach delivers up to five times more value than other security tools, establishing them as comprehensive and proactive digital defense pioneers.

If you want to learn more about CloudDefense.AI and explore one of the best CNAPPs in the industry, please [book a free demo](#) with us or connect with us here connectwithus@clouddefense.ai
