

Real-Time Language Translation Solution Set to Revolutionize Communication For Mandarin Chinese Speaking People

BEIJING, CHINA, March 26, 2024 /EINPresswire.com/ -- [1Voice.Ai Telecommunications](#) is about to launch a real-time language translation solution for Mandarin Chinese-speaking people everywhere. The subscription-based model eliminates language limitations, offering effortless communication in real-time across 60 languages (boasting an impressive 98% accuracy rate).

"Two people around the world speaking in their native tongues can have a conversation without a delay or intermediary. For the first time in human history, communication barriers no longer exist. We are so excited about [1Voice.Ai Telecommunications](#) because of all the potential it has to bring peace and economic collaboration on a global scale" said [Simon Wilby](#), CEO and inventor of 1Voice.Ai Telecommunications.

1Voice.Ai Telecommunications places a high priority on user privacy, ensuring that conversations remain confidential. The service is also designed to be easy to use. Additionally, 1Voice.Ai is built on a proprietary engine developed in-house which allows the company to offer greater control over performance, functionality, and security.

"1Voice.Ai can assure the safety and security of users as we do not use a third-party system like GPUs/H100s to run Ai' to run our system. Our system is our own code and for that, we give the security making sure the data the security of our customers is 100%" said Wilby.

With a mission to break down language barriers and promote seamless global communication, 1Voice.Ai Telecommunications is poised to reshape the way the world connects.
