“

At Brainsteam Education, we are committed to reshaping the future of education by harnessing the power of technology.”

Isil Hamdemir, PhD

The "PlanetARy" series integrates augmented reality technology into traditional activity books, providing learners with a multi-dimensional educational experience. Brainsteam Education aims to enhance engagement and comprehension by blending physical books with digital content, making learning more interactive and enjoyable for students of all ages.

"At Brainsteam Education, we are committed to reshaping the future of education by harnessing the power of technology," said Isil Hamdemir, PhD, Founder and CEO of Brainsteam Education. "Our Augmented Reality Activity Book series represents a significant leap forward in educational innovation, offering young learners a dynamic and immersive approach to exploring complex subjects."

The "PlanetARy" series addresses vital learning objectives across various disciplines, fostering curiosity and critical thinking skills among students. Each book in the series is meticulously crafted to provide engaging activities and educational content that aligns with curriculum standards.

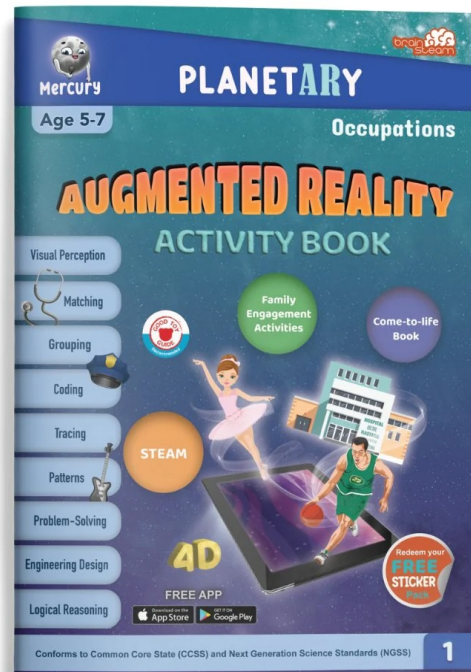

"As a women-led small business, Brainsteam Education is dedicated to bringing innovation and thoughtfulness to the forefront of education," added Isil. "We believe that by embracing emerging technologies like augmented reality, we can empower learners to unlock their full potential and thrive in an ever-changing world."

The launch of the "PlanetARy" series marks a significant milestone for Brainsteam Education as they continue to be in charge of educational innovation. The company remains committed to delivering high-quality, impactful learning experiences that inspire a lifelong love of learning.
