

# OCCUPATIONAL HEALTH & SAFETY ANNOUNCES 2024 INDUSTRIAL HYGIENE AWARD WINNERS

---

WOODLAND HILLS, CA, UNITED STATES, March 28, 2024 /EINPresswire.com/ -- Occupational Health & Safety, providing worker safety-triad insights since 1932, is pleased to announce the winners of the 2024 Industrial Hygiene Awards, a program honoring the outstanding product development achievements of health and safety manufacturers whose products are considered particularly noteworthy in their ability to improve industrial hygiene.

This year, 21 companies are joining the lineup of winners since the program's founding in 2021.

"This year's awards enjoyed a broad range of compelling entries with some hot competition in some of the categories," said David Kopf, executive editor and publisher of Occupational Health & Safety "This was particularly noticeable in categories such as Internet of Things—Connected Devices and Hearing Conservation & Noise Reduction. It just goes to show that the companies providing industrial hygiene products and services are continually working to innovate and improve."

The 28 winning products will be recognized in Occupational Health & Safety's marketing and promotions and on the special winners' section of its website.

"This program is a great way to showcase those innovations to IH professionals," Kopf continued. "Bearing that in mind, I want to thank our judges for helping us with this year's awards program and all the companies who entered."

## The 2024 Award Winners
