

## Medical Imaging Workstations Market Size to Worth USD 8.79 billion by 2029 | With a 8.37% CAGR by Exactitude Consultancy

Global Medical Imaging Workstations Market include - General Electric Company, Koninklijke Philips N.V

LUTON, BEDFORDSHIRE, UNITED KINGDOM, March 28, 2024
/EINPresswire.com/ -- The "Medical Imaging Workstations Market" Size, Scope, and Forecast 2024-2030 report has been added to the market research collection of Research Reports. The report offers an in-depth analysis of the growth of the industry by

segmenting it by type and geography. It provides an overview of the current market size and its forecast in terms of revenue and volume. Industry experts and researchers have offered an authoritative and concise analysis of the Medical Imaging Workstations Market with respect to various aspects such as growth Factors, challenges, Restraints, Developments, and Opportunities

The Medical Imaging

for growth. This report provides a pin-point analysis of changing dynamics and emerging trends in the Medical Imaging Workstations Market. The report also includes competitor and regional analysis and highlights the latest advancements in the market. Also this report analysis Porters five forces analysis, value chain analysis, SWOT analysis are some additional important parameters used for the analysis of market growth

The global Medical Imaging Workstations Market is

projected to reach USD 8.79 billion by 2029 from USD 4.47 billion in 2020, at a CAGR of 8.37 % from 2024 to 2030.

Global Medical Imaging Workstations Market Dynamics

Drivers

Rising Surgical Procedures

The growing number of surgical procedures worldwide, including minimally invasive surgeries, is boosting the demand for electrosurgery equipment. These tools are essential for cutting, coagulating, and dissecting tissues during surgeries.

If you require any specific information that is not covered currently within the scope of the report, we will provide the same as a part of the customization.

Top Key Players in Medical Imaging Workstations Market:

General Electric Company, Koninklijke Philips N.V., Siemens AG, Canon Medical Systems Corporation, Hologic, Inc., Fujifilm Holdings Corporation, Esaote SpA, Carestream Health, Inc., Medicor Imaging, Alma Medical Imaging, Ampronix, Pie Medical Imaging B.V, Accuray, Inc., Zeiss, Mirada Medical Limited.

## 

May 8, 2023: Siemens Healthineers announced its entrance into an agreement to distribute Scopio Labs' full-field digital cell morphology technology, which will enable clinical laboratorians to examine patient blood cell samples digitally instead of under a microscope.

31 March 2023: ZEISS is invested in life science start-up InSphero to further advanced the adoption of 3D microtissues in research and drug development. InSphero AG, a pioneer in 3D spheroid and cell-based assays in pharmaceutical drug discovery and safety testing, was raised an eight-figure amount in its latest funding round.

Segmentation of Medical Imaging Workstations Market:

Medical Imaging Workstations Market by Modality 2022-2029, (USD Billion)

Magnetic Resonance Imaging

**Computed Tomography** 

Ultrasound

Mammography
Other Modalities (X-ray, angiography, radiotherapy, and nuclear imaging systems, among others)
Medical Imaging Workstations Market by Component, 2022-2029, (USD Billion)
Visualization Software
Display Units
Display Controller Cards
Central Processing Units
Medical Imaging Workstations Market by Usage Mode, 2022-2029, (USD Billion)
Thin Client Workstations
Thick Client Workstations
Medical Imaging Workstations Market by Application, 2022-2029, (USD Billion)
Diagnostic Imaging
Clinical Review
Advanced Imaging
Medical Imaging Workstations Market by Specialty, 2022-2029, (USD Billion)
Oncology
Cardiology
General Imaging/Radiology
Obstetrics and Gynecology
Orthopedics

Other

Medical Imaging Workstations Market by Regions, 2022-2029, (USD Billion) North America Europe Asia Pacific South America Middle East and Africa Important Countries in All Regions Are Covered Medical Imaging WorkstationsMarket, By Geography North America (United States, Canada, and Mexico) Europe (Germany, UK, France, Italy, Russia, Turkey, etc.) Asia-Pacific (China, Japan, Korea, India, Australia, Indonesia, Thailand, Philippines, Malaysia, and Vietnam) South America (Brazil, Argentina, Columbia, etc.) Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria, and South Africa) Dominating Region:

he North American market for medical imaging workstations is the largest. The presence of a large patient population suffering from various ailments, high health care spending, and rising investment in the healthcare sector have all contributed to the growth of the medical imaging workstations market in the Americas. Due to its developed economy and considerable consumer buying power, the United States dominates the North American medical imaging workstations industry. Mexico and Canada are projected to have a large market opportunity in the foreseeable future.

To study and analyse the global s market size (value and volume) by company, key regions/countries, products and application forecast to 2030.

To understand the structure of Medical Imaging Workstations market by identifying its various sub segments.

To share detailed information about the key factors influencing the growth of the market (growth potential, opportunities, drivers, industry-specific challenges and risks).

Focuses on the key global Medical Imaging Workstations manufacturers, to define, describe and analyse the sales volume, value, market share, market competition landscape, SWOT analysis and development plans in next few years.

To analyse the Medical Imaging Workstations with respect to individual growth trends, future prospects, and their contribution to the total market.

To project the value and volume of Medical Imaging Workstations submarkets, with respect to key regions (along with their respective key countries).

To analyse competitive developments such as expansions, agreements, new product launches, and acquisitions in the market.

To strategically profile the key players and comprehensively analyse their growth strategies.
