Company*

The growth in the precision guided munition market is due to the increase in military expenditure. Asia-Pacific region is expected to hold the largest [precision guided munition market share](#). Major players in the precision guided munition market include Northrop Grumman Corporation, Lockheed Martin Corporation, The Boeing Company, BAE

Systems PLC, General Dynamics Corporation.

## [Precision Guided Munition Market Segments](#)

- By Product: Tactical Missiles, Guided Rockets, Guided Ammunition, Torpedoes, Loitering Munitions
- By Technology: Infrared, Semi Active Laser, Inertial Navigation System (INS), Global Positioning System (GPS), Radar Homing, Anti-Radiation
- By Launch Platform: Land, Airborne, Naval
- By Mode of Operation: Semi-Autonomous, Autonomous

- By Speed: Subsonic, Supersonic, Hypersonic
- By Geography: The global precision guided munition market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

A precision-guided munition is a guided weapon that detects electromagnetic energy reflected from a target to destroy a point target and minimize collateral damage. These are guided using a global positioning system (GPS), a laser guidance beam, or an integrated inertial navigation system.

The main types of products in the precision-guided munition category are tactical missiles, guided rockets, guided ammunition, torpedoes and loitering munitions. Tactical missiles are shorter-ranged weapons designed for use in close combat areas. These operate at various speeds, such as subsonic, supersonic and hypersonic. The different modes of operation include semi-autonomous and autonomous and involve several technologies such as infrared, semi-active laser, inertial navigation system (INS), a global positioning system (GPS), radar homing and anti-radiation. It is also segmented by launch platform into land, airborne and naval.
