COVID-19 Scenario:

□ The COVID-19 outbreak impacted the compliance and traceability solution industry negatively. Disruptions in the supply chain for tracking and tracing activities and limited operations of logistics and transportation led to a decline in the market growth.

□ However, compliance and traceability solutions are likely to gain momentum in future, owing to the continued surge in demand for traceability solutions from various industries, especially the food and pharma sectors.

□ Following the pandemic outbreak, innovations and advancements in compliance and traceability solutions, such as real-time monitoring and RFID technology have aided in the market growth.

□ Rise in digital transformation initiatives in supply chain models augmented the growth of the compliance and traceability solutions market.
