The Narmada River, previously also known as Narbada or anglicized as Nerbudda, is the 5th longest river in India and overall the longest west-flowing river in the country. It is also the largest flowing river in the state of Madhya Pradesh. Hindus believe the Narmada River sprang from the body of the god Shiva and in sanctity the Narmada ranks after only the Ganges. The Narmada River heritage trail is an example of a customized itinerary for river tourism. Starting in Indore, travel to Sailani where one can experience the rich biodiversity of the Narmada. From there go to the historical town of Maheshwar, staying in a heritage fort. The last lap of this trail is travel to Mandu, home to one of the largest forts in India and the Jahaz Mahal (Ship Palace), before ending up back in Indore.
