“

I hope to inspire others through my art and music”

Na'jarii

"Jaded" summarizes Na'jarii's life as he reflects on the challenges and endless loop of failed toxic

relationships, friendships, and relatable unfortunate events and how they have affected his mental state. While trying to find light in the mix of negativity, Na'jail struggles to see through the value of what is real and invites his listeners into his mind as he articulates his emotions and unravels the intricacies of his thoughts in a candid dialogue with himself. The debut single from the project, "Anesthesia," encompasses the intricate blend of managing pain and existing in a state of detachment from one's usual self.

"I am dedicating this EP to my nephew, who recently passed away. Things may happen in life that we won't understand; maybe not everything is meant to be understood. I hope that this pain and other pain that people experience in any area of their lives will provide the strength we all need to prepare us for God's plan. I hope to inspire others through my art and music." - Na'jail @najaiimusic
