Who Are These Products For?

1Hour-After's product range is meticulously crafted and scientifically formulated for the daily athlete - individuals dedicated to their fitness journey, regardless of their professional status. From weekend warriors to committed amateurs and semi-professionals, these products are for those who push their limits and need a recovery solution that matches their dedication and intensity. If you care about what goes on, or in, your body – these products are for you.

How Are the Products Used?

The free sample suite includes targeted solutions for hair, skin, and muscles - each infused with key nutrients such as magnesium, menthol, amino acids, protein, electrolytes, and zinc. Whether it's through the sweat reducing and hair [strengthening shampoo](#) & conditioner products, rejuvenating cooling body wash or a nutrient-rich muscle recovery lotion, athletes can use these products to replenish vital nutrients, rehydrate their skin and hair, and accelerate muscle recovery post-exercise. The simple, yet effective routine enhances recovery and prepares the

body for the next workout.

The Mission of 1Hour-After

At the heart of 1Hour-After is a mission to empower athletes by offering innovative, accessible, and effective recovery solutions. "We believe that body care recovery is as much of an essential part of a fitness routine as diet or stretching. It is not just a luxury for the elite and should be accessible for all" says Greg Mitchell, Brand Manager of 1Hour-After. "Our goal is to offer products with utility, that are specifically created to support athletes in their journey towards achieving their personal bests by ensuring their bodies are well-cared for after every workout."

A Revolutionary Approach to Post-Workout Recovery

Recovery is not just about resting; it's about actively supporting the body's natural healing processes. 1Hour-After's products are designed to do just that - by replenishing lost nutrients and aiding in the quick restoration of the body's balance. With ingredients carefully selected for their efficacy and benefits to athletes, these products stand at the forefront of [post-exercise care](#). Currently there are no other 'athlete specific' body care products. Big brands like Dove & Old Spice have 'sport' products but the formulas do not differ from their regular product offerings. 1Hour-After is aiming to be the first time based, athlete specific suite of body care products.

The Power of Free Samples

Understanding the skepticism that often surrounds new products, 1Hour-After has decided to let the quality speak for itself by offering free samples. This unique approach not only underscores the company's confidence in its product line but also demonstrates a commitment to accessibility and customer satisfaction. "We want to remove any barriers that prevent athletes from accessing what could be a game-changer in their recovery process," explains Greg Mitchell, Brand Manager at 1Hour-After. "We are confident that the ingredients used in these products will leave the athletes hair, skin and muscles in a better place and want everyone to be able to try them."

Join the Recovery Revolution

Athletes across North America are invited to experience the difference with 1Hour-After's free sample offer. By covering just the cost of shipping, individuals can embark on a journey to faster recovery, better performance, and overall enhanced well-being. This initiative is more than a promotion; it's a call to action for athletes everywhere to prioritize their recovery with the same seriousness as their training.

About 1Hour-After
