WASHINGTON, DC, UNITED STATES, April 2, 2024 /EINPresswire.com/ -- [Dr. Shea Bradley-Farrell](#), author of the acclaimed book [Last Warning to the West: Hungary's Triumph Over Communism and the Woke Agenda](#), featured on C-SPAN Book TV, Radio, and C-SPAN's Washington Journal, cites a "new and imminent" terrorist threat that against the U.S. has reached a "whole new level" following the Moscow Massacre and October 7th – what will it take before President Joe Biden and U.S. Congress act to close our borders? Foreigners from countries adversarial to the U.S. –China, Afghanistan, Iran, Russia– and individuals on the U.S. terrorist watchlist stream across illegally by the hundreds of thousands.

[In the case of Chinese nationals, if only 1% of the 113,000](#) that have come illegally during Biden's presidency are under the direction and control of Chinese Intelligence and People's Liberation Army, then 1,000 are here to infiltrate, sabotage, disrupt, or destroy U.S. infrastructure and harm American citizens as a part of the PRC's "whole of government campaign" against America. It only took 19 terrorists to kill thousands of Americans on 9/11.

Dr. Shea Bradley-Farrell recently penned an opinion article on this subject in the Washington Examiner titled "Biden fiddles while China invades." The full opinion article is available at the Washington Examiner.
