His contagious passion for the Law of Increase makes his podcast "Doing Business with a Servant's Heart" so successful. This show is chock-full of inspiring stories about overcoming challenges and serving others.

Steve has a knack for spreading good vibes and elevating those around him. He learned from his dad that the entrepreneurial spirit is a great way to make money. I can share stories of how people serve, struggle, and win. We must overcome something, so why not learn to serve and overcome it much faster? I learned early in our Health Club the importance of customer service. I knew the more I served, the more it was a win-win for everyone. I enjoy working with people, referring people, and helping people grow. The Law of Increase is my mission when I network around the world.

I love to mentor businesspeople and offer all the resources I have. To win, you must grow yourself first; then, you can share this with others! I am an avid reader.

About Ernelita Dacumos and Steve Steele

Ernelita also known as Ernie, is an Independent Certified Coach, Facilitator, Trainer, and Speaker with the Maxwell Leadership Certified Team. She has been thriving in the Healthcare Industry for over 10 years while fulfilling her purpose of motivating, teaching, and empowering young leaders to see their full potential. Personal Growth is where her passion is as she has gone through the journey herself. Ernie was a "shy introvert" and turned into a "confident introvert". From the woman who used to stutter when speaking in front of others to the woman who now facilitates masterminds, workshops, and speaks in front of an audience. A woman who used to have a victim mentality now has a can-do attitude. A woman who had always been too hard on herself, characterized as a perfectionist, overachiever, and with high expectations. To the gentle, self-loving, action-taker, and learn-as-she-goes attitude. She is an enthusiast when it comes to confidence and had worked on becoming a confidence mentor for her community and the people around her. Ernie's goal is to broaden her ability to help others. As she saw first-hand that personal growth must be intentional yet not always available to others. She is dedicating her life's work to creating a safe environment while educating, empowering, and spreading knowledge about Personal Development. On top of personal growth, Ernie's leadership skills were heightened upon going through the Maxwell Leadership Certified Team program. Ernie thrives to add value to people by showing them that continuous growth is possible if you are willing to put in the work for it.
