"I am deeply inspired by the female guitar pioneers who made timeless contributions to American music and its history. These trailblazing women weren't just playing the guitar; they were living it, pouring their souls into every note. Their stories are not just about music but about overcoming barriers, setting new standards, and inspiring generations of players.

I'll share some of the musical qualities that inspired me about each: their technique, energy, and style — and then I'll play a performance study to illustrate those qualities in a musical context."

TrueFire's multi-angle video lessons, interactive video teaching methodologies, and intuitive learning tools have powered immersive learning experiences for millions of music learners worldwide. "Guitar Trail Blazers" performances and examples are tabbed, notated, and synced to the video lessons with looping, slow motion, and fretboard animation. Other learning tools enable students to personalize their learning experience and learn at their own pace.

TrueFire founder Brad Wendkos expressed his excitement about the collaboration, stating, "Sue

Foley is an exceptional multi-talented artist, brilliant singer-songwriter, master guitarist, and passionate educator. Sue personifies those qualities, as evident in 'Guitar Trail Blazers.' We're proud to have worked on such an important project with Sue!"
