

MacLean Power Systems Selects Evotix's EHS&S Software for Safety Management

Evotix's EHS&S software streamlines incident, risk, and audit management, ensuring compliance and operational efficiency

CHICAGO, IL, UNITED STATES, April 4, 2024 /EINPresswire.com/ -- -- [MacLean Power, LLC](#) ("MacLean Power Systems," "MPS"), a leading manufacturer of products for the electric utility and communications infrastructure, today announced it has selected [Evotix](#), the world-leading environment, health, safety and sustainability (EHS&S) software company for mid-size and enterprise markets, as its safety management partner.

Evotix will help MPS with incident management from initial reporting to investigation and closure of actions.

Evotix will help MPS with incident management from initial reporting to investigation and closure of actions. The risk management solution will empower the MPS team to proactively identify, analyze and control hazards and risks. MPS will migrate to a centralized, digitized process to manage observation and mitigation, enabling more efficient operations, reducing downtime, increasing productivity and streamlining processes while minimizing injury and illness.

"We selected Evotix because the team understood our needs and we found immense value in how their solution could improve and optimize our health, safety and sustainability operations," said Emily Johnson, director of environmental, health and safety at MacLean Power Systems. "As a family-oriented company, we consider each of our roughly 2000 employees and their families to be a part of our extended MPS family, so their safety is our priority. Evotix's approach aligned perfectly with our commitment to mission zero – zero injuries, zero illnesses and zero environmental incidences and our 'For Us for Family' pledge in which we highlight our belief that all incidents are preventable, that nothing is so important we cannot do our work safely and in protecting ourselves and each other every day."

MPS provides engineered products, including pole line hardware, insulators, arrestors,

connectors, anchors, crossarms and others. Across MPS' utility and communications end markets, the MacLean Power Systems brand has become synonymous with quality and reliability since 1986.

Evotix's EHS&S platform streamlines incident, audit, inspections and risk management processes by simplifying workflows, automating manual processes and addressing compliance and regulatory requirements. The platform tracks key metrics, bolstering transparency and creating an environment committed to workplace health, safety and sustainability. Evotix's mobile app ensures that training materials and safety resources are readily available to

employees in real time and can onboard new employees quickly and easily.

“MPS' EHS team manages over eight facilities, with several facilities hosting more than 400 pieces of equipment. Every process and machine are inspected across 52+ areas of risk to help ensure employee safety,” said Ben Woodruff, senior vice president of global sales at Evotix. “Our solution will help MPS minimize incidents and risks in the workplace while diminishing hazards and reducing injury rates, safeguarding people and creating a safer, healthier environment.”
