

SindyXR Launches First Extended Reality (XR)-based Group Health Support System

First of its kind XR-based Integrated Telehealth, Virtual Reality & In Person Group Health Support System Now Available to Health Professionals & their Patients

NEW YORK, NY, UNITED STATES, April 8, 2024 /EINPresswire.com/ -- [SindyXR](#), Inc., the Seamless Integrated Dynamics Company, announced the launch of the first Extended Reality (XR)-based Group Health Support System integrating Telehealth, Virtual Reality and In Person Support Group Services.

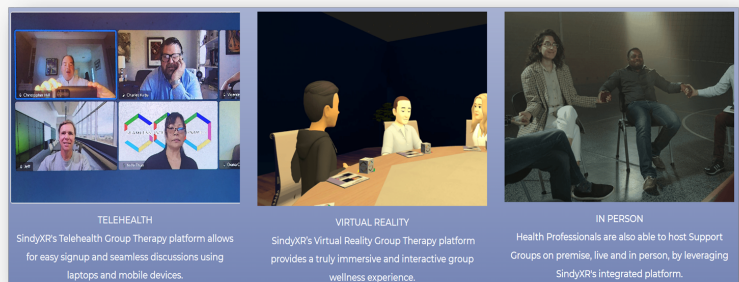

[Christopher M. Hill](#), SindyXR Chairperson & Chief Executive Officer, commented on today's launch:

"The healthcare services segment is a \$9 Trillion marketplace, and the expansion of telehealth and innovative digital health services are the key drivers of further rapid growth. With today's launch of the SindyXR Group Health Support System, patients across all age groups and health conditions are now able to learn from, interact with and find support in each other while in the care of their healthcare professional."

Designed specifically for Extended Reality (XR), SindyXR's Group Health Support System delivers a transformative experience for [healthcare professionals](#) and their patients that prioritizes group
