

PumpAlarm.com Offers TextLight Electrical Current Monitoring Kit for Industrial Applications

The company introduces a vital solution for monitoring operating current availability in industrial settings.

INDIANAPOLIS, INDIANA, UNITED STATES, April 5, 2024

/EINPresswire.com/ -- PumpAlarm.com, a leading innovator in remote monitoring solutions, announces the release of its [TextLight Electrical Current Monitoring Kit](#), designed to streamline electrical motor monitoring in industrial and commercial settings. This user-friendly kit empowers users to proactively manage critical equipment, prevent downtime, and optimize operational efficiency.

The TextLight Electrical Current Monitoring Kit offers a comprehensive solution for monitoring the presence or absence of electrical current in motors powering pumps, fans, and other vital machinery. Featuring a straightforward setup process, the kit integrates seamlessly into existing electrical systems without extensive modifications.

“We are excited to introduce the TextLight Electrical Current Monitoring Kit and empower industrial and commercial operations with a reliable and cost-effective solution for monitoring electrical current,” says Mr. Tom Ward, President and CEO of PumpAlarm.com. “This kit provides real-time insights into motor performance, enabling proactive maintenance and ensuring the uninterrupted operation of critical equipment.”

Key Features of the TextLight Electrical Current Monitoring Kit:

- **Simplified Installation:** The kit boasts a user-friendly design that streamlines installation. By

utilizing a split-core current sensing mechanism, the device effortlessly integrates around current-carrying conductors, eliminating the need for complex wiring configurations.

- **Seamless TextLight Integration:** The kit seamlessly integrates with the TextLight cellular alarm unit, providing real-time text message notifications directly to your mobile phone. This allows for remote monitoring of electrical current and facilitates prompt intervention in case of potential issues.
- **Configurable Current Sensing:** The kit's device can be configured to either monitor for the continuous flow of current within a conductor or simply detect its presence or absence. This versatility empowers users to tailor the monitoring solution to their specific requirements and effectively track the operational status of electrical motors.
- **Extensive Applications:** The TextLight Electrical Current Monitoring Kit caters to a wide range of industrial and commercial applications. It ensures uninterrupted operation of critical machinery in industrial settings by monitoring electrical motors powering pumps, fans, and blower systems. Similarly, in commercial environments like office buildings and retail spaces, the kit safeguards the functionality of essential systems like water pumps and HVAC equipment by detecting current fluctuations.

"Our new TextLight Electrical Current Monitoring Kit is a game-changer for industries that rely on the uninterrupted operation of electrical motors," said Ward. "With real-time text notifications sent directly to your phone, you can stay informed about the status of your equipment and take proactive measures to prevent downtime and ensure optimal performance."

All PumpAlarm.com devices, including TextLight, require an annual cellular network connectivity subscription priced at \$75.00. This subscription ensures 24/7 monitoring capabilities and can be conveniently activated directly from your mobile phone through the PumpAlarm.com website.

Backed by a one-year, bumper-to-bumper warranty, PumpAlarm.com stands behind the quality of the TextLight Kit, offering a money-back guarantee on service across the lower 48 states and Hawaii. This commitment underscores the company's dedication to service excellence and customer satisfaction across the United States.

PumpAlarm.com offers a variety of other innovative remote monitoring solutions, designed to provide peace of mind, and protect valuable assets. To explore its range of products, visit <https://www.pumpalarm.com/shop> today or call +1 888-454-5051.

###

About PumpAlarm.com

PumpAlarm.com is a leading provider of remote monitoring solutions for residential and

commercial applications. The company's mission is to empower users with the tools and technology they need to stay connected to their critical assets, prevent costly problems, and ensure peace of mind. PumpAlarm.com is committed to innovation and excellence, developing cutting-edge solutions that are reliable, affordable, and easy to use.

203 West Morris St
Indianapolis, IN 46225
USA

Notes to Editors:

- The TextLight Electrical Current Monitoring Kit is part of PumpAlarm.com's extensive portfolio of remote monitoring solutions designed to meet the diverse needs of the industrial and commercial sectors. The kit's launch further solidifies the company's position as a key player in the remote monitoring industry, offering state-of-the-art technology and exceptional customer service to ensure the operational efficiency and safety of critical systems across the United States.
- PumpAlarm.com offers a 1-year warranty on all its 4G devices.
- The company provides a money-back guarantee on its service within the lower 48 states and Hawaii.
