

NoOnes Introduces Binance Smart Chain (BSC) Support for USDT Transfers via BEP-20 Protocol

NIGERIA, April 8, 2024 /EINPresswire.com/ -- NoOnes, the leading [peer-to-peer marketplace](#) catering to the global south with over 450 different payment methods to [trade Bitcoin](#), proudly announces the integration of Binance Smart Chain (BSC) support for sending Tether (USDT) via the BEP-20 protocol. This groundbreaking development marks a pivotal moment in the world of digital transactions, offering users unparalleled benefits and a seamless experience.

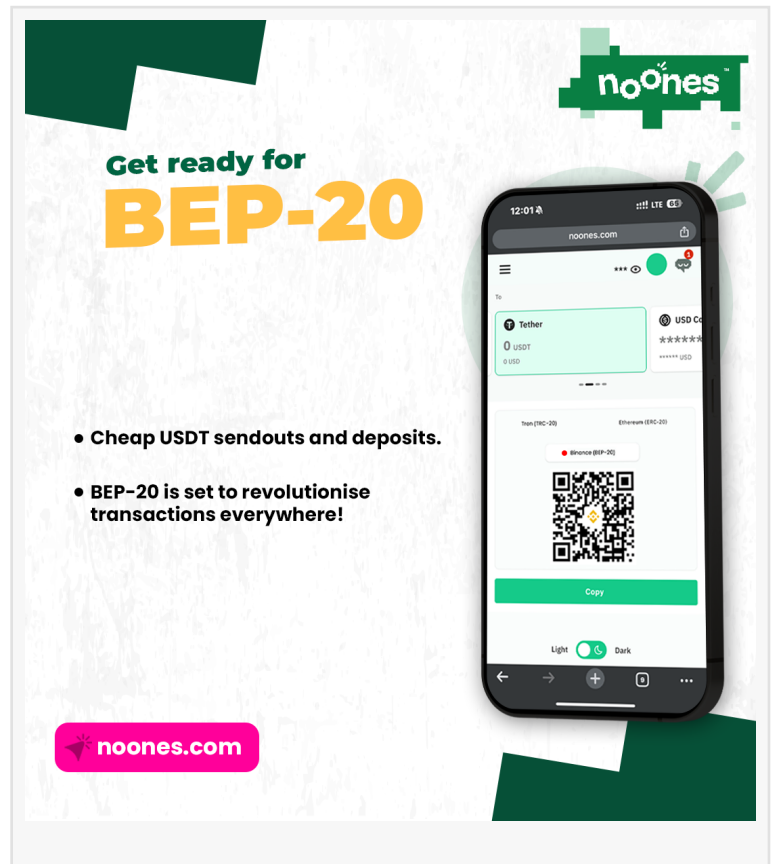

In response to the escalating concerns regarding high sendout fees and sluggish transaction speeds, NoOnes has stepped up to deliver a solution that revolutionizes the landscape. With the introduction of BSC support for USDT, users can now experience the following key benefits:

Cost-Effective Transactions: Bid farewell to exorbitant transaction fees. NoOnes users can now enjoy significantly reduced costs, enabling them to maximize their profits and minimize unnecessary expenditures.

Lightning-Fast Transfers: Say goodbye to waiting times. With near-instantaneous transaction speeds, users can execute transfers swiftly, staying ahead of the curve in the fast-paced world of cryptocurrency.

Seamless User Experience: Trading and utilizing Tether (USDT) has never been easier. NoOnes' integration of the BEP-20 protocol ensures a seamless and intuitive experience for users, streamlining operations and enhancing overall convenience.

Ray Youssef, CEO of NoOnes, emphasized the company's commitment to innovation and customer-centricity, stating, "At NoOnes, we are committed to continuous improvement and

With the addition of BEP-20 support for USDT within the NoOnes wallet, we are proud to offer our users the most cost-effective network for send-outs."
