The EXPLORER I distinguishes itself by facilitating seamless connectivity to Wi-Fi hotspots and cellular coverage, supporting major carriers across North America. Designed specifically for recreational vehicles, it ensures that adventurers remain connected, irrespective of their location.

Featuring dual Wi-Fi radios and multiple LTE cellular modems, the EXPLORER I offers unparalleled speeds up to 857 Mbps via Wi-Fi and up to 600 Mbps for cellular downloads. With comprehensive coverage supporting all Big 6 carriers in the USA and Canada, users enjoy extensive connectivity options. The router's Ethernet ports further provide speeds up to 1000 Mbps, catering to all internet needs within an RV.

A standout feature of the EXPLORER I is its intuitive setup and configuration through the Routica App, available on Google Play and the Apple Appstore. The device also boasts advanced functionalities such as [Hotspot Sharing](#), [Trip/Location Tracking](#), and Sentry for security, enhancing the user's travel experience by keeping them connected and secure.

"Routica's launch of the EXPLORER I represents a leap forward in mobile internet solutions for the RV community," stated Tahir Akram, President, at Routica. "We are excited to offer a product that not only meets the demand for reliable and fast internet on the road but also introduces innovative features aimed at improving overall travel safety and enjoyment."

The EXPLORER I is now available, promising to set a new standard for mobile connectivity for RV enthusiasts. For more information, interested parties are encouraged to contact Routica's customer support.
