Covid-19 Scenario:

□ The AI text generator market witnessed stable growth during the COVID-19 pandemic, owing to an increase in the adoption of digital and remote research technologies as schools and universities went online during the pandemic situation.

□ In addition, the COVID-19 pandemic resulted in the deployment of technology across various academic institutions for online classes and learning, which, in turn, drove the development of advanced machine-learning models.

I Moreover, the growing demand for the AI text generator market in healthcare education and learning and increasing application in healthcare diagnosis and screening is expected to boost the market growth in the post-pandemic.
