MELTRIC® Switch-Rated DSN30 Cord to Cord Plug and Receptacle

The AAAE Conference & Exposition is a premier event that brings together airport industry professionals, exhibitors, and thought leaders to explore the latest trends, technologies, and best practices in airport management and operations. MELTRIC joins in the exhibition this year to provide electrical solutions that meet the diverse needs of airports, assembly facilities, and maintenance hangars.

MELTRIC's power connection devices are specifically designed to address the unique electrical requirements of the aviation industry. Boasting NEC 513 compliance above 18 inches, MELTRIC Switch-Rated devices help avoid the need for special haz-loc equipment and safety procedures on mobile power carts. With features such as DECONTACTOR™ technology, integral LOTO, dead-front safety shutter mechanisms, and Switch-Ratings, MELTRIC devices ensure secure power connectivity in critical and hazardous environments.

Attendees of the AAAE Conference & Exposition are invited to visit booth 1122 to explore

MELTRIC's comprehensive range of plugs and receptacles. Participants are invited to view live demonstrations of MELTRIC Switch-Rated devices at the booth.

Discover the future of electrical safety and reliability for aviation applications with MELTRIC at AAEE 2024. Join us at booth 1122 to explore our electrical connection products and discuss how MELTRIC can support your aviation-related power needs.
