We believe virtual production stages are the future of filmmaking, and we are thrilled to bring this world-class facility to the state of Texas as the new creative beacon of the industry."

*Joe Worth, Studio Director at
Trilogy Studios*

All three stages, set to open in June 2024, offer filmmakers and commercial production companies an innovative way to bring their creative visions to life in a controlled environment. Equipped with cutting-edge technology and designed by [Optic8](#), a leading LED Volume integrator, Trilogy Studios is excited to help make Dallas-Fort Worth, Texas an even more attractive destination for productions.

The 5-acre production facility will house all three stages, a shop for set construction, and dedicated production support spaces for each stage, to accommodate concurrent productions.

Stages in Detail:

- Cinematic Volume: The largest LED Volume in the state of Texas. Dimensions are 157 ft wide and 23 ft tall, designed to meet the complex requirements of cinematic features and episodic

productions.

- Car Processing Stage: Six rolling LED walls and five height- and tilt-adjustable LED ceiling sections will adapt to vehicles of all sizes for moving vehicle shoots.

- Commercial Stage: The curved LED wall dimensions are 50 ft wide and 20 ft tall, featuring a full LED ceiling, to create an ideal setting for commercial and broadcast productions.
