

# AI and Big Data Expo agenda set to explore the latest cutting-edge technologies

*AI and Big Data Expo North America is thrilled to announce the final agenda for the event, taking place on 5-6 June at the Santa Clara Convention Center.*

SANTA CLARA, CA, UNITED STATES, April 11, 2024 /EINPresswire.com/ -- [AI and Big Data Expo North America](#) is thrilled to announce the detailed [agenda](#) for our upcoming event, set to

take place on 5-6 June at the Santa Clara Convention Center. This two-day conference will delve into the latest advancements in Artificial Intelligence and Big Data, featuring expert [speakers](#), thought-provoking panel discussions and a packed expo floor.

“

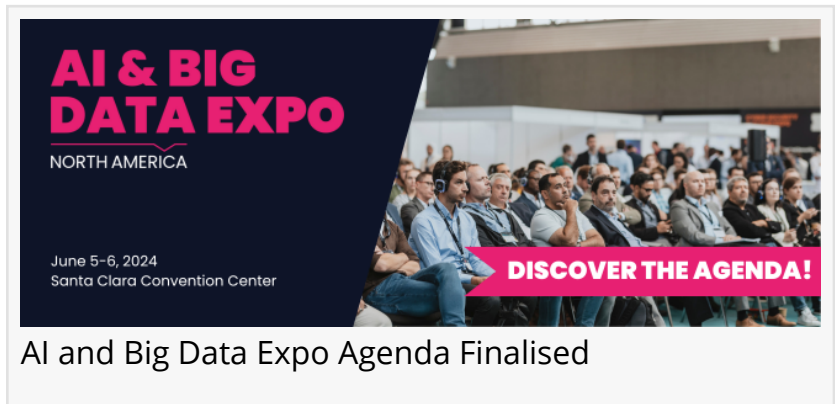

We are excited to present a comprehensive agenda that covers key topics shaping the future of AI and Big Data,”

*Michael Hughes*

Day 1 of the event will kick off on the "Gen AI & Data Science" stage with a series of engaging sessions aimed at exploring the transformative potential of AI and Data Science across various industries. Attendees can expect deep dives into next-gen AI capabilities, workforce augmentation, machine learning algorithms and real-world case studies showcasing the impact of data-driven decision-making.

On the same day, the "Unleashing the Power of Data for All, stage will emphasize democratizing access to data and empowering individuals and organizations to harness its full potential. From data literacy initiatives to inclusive data governance frameworks, our speakers will share insights on fostering a data-driven culture for all. Data utilisation, People, Processes and Technology, Data-driven decision-making, Strategic decision-making and Smart data governance frameworks will all be covered.

Moving on to Day 2, June 6 the spotlight will shift to "Safe, Secure and Responsible Data & AI," this track will address the critical importance of ethics, privacy, and security in the era of Big Data and AI. Through interactive panels and expert-led sessions, attendees will gain practical strategies for ensuring responsible AI deployment and safeguarding sensitive data assets.

The Day 2 agenda on second stage, will cover "Gen AI & MLOps for the Optimized Enterprise," focusing on the integration of AI models into operational workflows and the emerging field of MLOps. Participants will learn best practices for building scalable AI pipelines, optimizing model performance, and driving innovation across their organizations. Session topics include Advanced AI Enterprise Integration, Mastering AI growth and MLOps Excellence in Practice.

Speaker companies include experts from Walmart, Visa, Capital One, Verizon, Thomson Reuters, BP, Wells Fargo and many more!

"We are excited to present a comprehensive agenda that covers key topics shaping the future of AI and Big Data," said Michael Hughes, Senior Conference Producer at TechEx events. "With an impressive line-up of speakers and thought-provoking discussions, attendees can expect to gain valuable insights and actionable strategies to drive success in their AI and data initiatives."

AI and Big Data Expo invites professionals, researchers, and enthusiasts from all sectors to join us for this immersive two-day event. Don't miss this opportunity to network with industry leaders, expand your knowledge, and stay ahead in the rapidly evolving fields of AI and Big Data.

Paid ticket holders will get access to:

- All AI stages including paid tracks
- VIP networking party on the evening of Day 1
- Access to the networking app 2 weeks prior to the event
- Access to multiple networking areas
- Access to the collocated Digital Transformation Week stages
