

# DICE Dental Enhances Smiles with Premier Dental Implant Services in Bethlehem

*Dental implants in the Lehigh Valley are available for patients with missing teeth.*

BETHLEHEM, PA, USA, April 11, 2024 /EINPresswire.com/ -- DICE Dental in Bethlehem offers top-tier dental

implant services, providing patients

with a durable, natural-looking solution for missing teeth. [Dental implants](#) are a cornerstone of modern dental care, offering a long-term option for those looking to restore their smile's functionality and aesthetic appeal.

“

Our dental implants have completely changed the lives of our patients”

*Dr. Damien Ren*

“Our dental implants have completely changed the lives of our patients” says Dr. Damien Ren, dentist in Bethlehem. “Being able to speak without pain or enjoy a favorite meal again, it means a lot to our patients.”

At the heart of DICE Dental's implant services is the placement of a medical-grade titanium screw, designed to

replace the root of a missing tooth. This procedure lays the foundation for a strong and secure connection to replacement teeth, ensuring patients can enjoy the benefits of a fully restored smile.

The restorative phase of the implant process includes the attachment of an abutment, which serves as a connector between the implant and the final restoration, such as a crown or denture. The implant crown, either screwed or cemented onto the abutment, is the final step in the restoration process, typically occurring 4-6 months after implant placement. This crown is meticulously designed to match the natural appearance of the patient's teeth, offering a seamless and attractive finish.

Dental implants at DICE Dental are only \$1,250, reflecting the practice's commitment to reducing barriers to [high-quality dental care](#). This initiative is part of DICE Dental's broader mission to provide a range of dental services, including dentures, crowns, and extractions, in a comfortable and welcoming environment.
