As Truck Accidents Increase Nationwide, Belal Hamideh Stands With Accident Victims

LONG BEACH, CA, UNITED STATES, April 15, 2024 /EINPresswire.com/ -- Belal Hamideh, a [trucking accident lawyer](#) serving all of California, has helped clients who were injured in accidents involving trucks to receive compensation for their injuries. As truck accidents rise across the country, Belal encourages the drivers of trucks and all other vehicles on the road to be as careful as possible.

According to the [Federal Motor Carrier Safety Administration](#), in 2021, the last time truck accidents were studied, "5,904 large trucks and buses were involved in fatal crashes, an 18-percent increase from" the year before.

Additionally, "the number of large trucks involved in fatal crashes increased 18 percent, from 4,821 to 5,700 and the large truck involvement rate (large trucks involved in fatal crashes per 100 million miles traveled by large trucks) increased (by) 8 percent."

The study found that the number of large trucks involved in injury crashes, property damage, and fatal crashes increased over that period by 11%, 25%, and 19.6%, respectively.

Belal Hamideh, in his capacity as a [semi-truck accident lawyer](#), has represented victims who were injured in accidents involving large trucks. In truck accidents, multiple parties can be liable: truck drivers, owners, loaders, manufacturers, drivers of other vehicles, and others.

As part of constructing a case for his clients, Belal investigates who is liable for trucking accidents and brings a case against all such parties.
