

ASAP Semiconductor Achieves Approved Supplier Status with Lockheed Martin

ASAP Semiconductor announces its position as an approved supplier for Lockheed Martin, a partnership that will streamline and advance operations.

CALIFORNIA, ANAHEIM, UNITED STATES, April 15, 2024

/EINPresswire.com/ -- We at ASAP Semiconductor are proud to announce our recent designation as an [approved supplier of Lockheed Martin](#). With this partnership, we aim to offer comprehensive procurement solutions and unparalleled services to support and streamline Lockheed Martin's diverse range of projects and operations.

Lockheed Martin is a name synonymous with cutting-edge technology and unwavering dedication to promoting national security objectives. As a longstanding leader in the industries it operates in, Lockheed Martin has been at the forefront of many aerospace advancements, from developing the iconic [F-35 fighter jet](#) to pioneering spacecraft for NASA. Lockheed Martin's influence extends far beyond aerospace, as its efforts play a crucial role in defense systems, cyber security solutions, and advanced information technology. The rigorous operational requirements of Lockheed Martin for timely access to best-in-class components and reliable fulfillment is what we at ASAP Semiconductor aim to address with our unmatched ability to expedite fulfillment, reduce costs, and alleviate logistics involved with purchasing.

“

We are incredibly honored to be named an approved supplier for Lockheed Martin. This partnership reflects our shared commitment to providing the highest quality components and services.”

Joe Faruqi

Established in 2009, we at ASAP Semiconductor serve as a solution-based systems integrator that offers custom procurement, distribution, logistics, and project management solutions to a wide array of customers. With a team of industry-leading sales representatives and unmatched data intelligence, our company has the ability to provide immediate options to address the

demanding requirements of customers, even when other channels fail. Customers are also provided direct access to account managers and support staff when they partner with us, ensuring that requirements are met with care, efficiency, and accuracy.

There are many benefits associated with working with an approved supplier, such as companies being able to dedicate more resources to innovation and core functionalities while having all of their repeat and unexpected fulfillment needs addressed with care. The establishment as an approved supplier of Lockheed Martin underscores our dedication at ASAP Semiconductor to providing high-quality components and exceptional services to industry leaders, as we will facilitate the advancement of Lockheed Martin's mission-critical projects with unmatched commitment and service. We operate with the goal of empowering customers with unmatched purchasing options, our array of resources and team of industry experts allowing us to reduce procurement times, minimize inventory costs, and enhance overall efficiency.

"We are incredibly honored to be named an approved supplier for Lockheed Martin," said Joe Faruqi, CEO of ASAP Semiconductor. "This partnership reflects our shared commitment to providing the highest quality components and services. We are confident that our extensive resources and unwavering dedication to customer satisfaction will significantly benefit Lockheed Martin, as well as the aerospace, defense, and information security industries as a whole."

If you are looking for a procurement partner that can streamline fulfillment for [quality-assured parts](#) while bringing highly competitive pricing and rapid lead times to the table with each order, look no further than ASAP Semiconductor. When you initiate the purchasing process through our online platform, you will be connected with a dedicated account manager who will provide you with unmatched procurement options and one-on-one consultation to optimally address your needs. We are also happy to discuss the options we offer for alleviating time constraints or excess inventory, so feel free to contact us by phone or email at any time. Learn more about how we can meet your needs with ease when you take the first step of procurement on ASAP Semiconductor.
