

Kore Digital Mining Ltd announces additional \$150,000 Seed Investment.

EDINBURGH, SCOTLAND, UNITED KINGDOM, April 15, 2024

[/EINPresswire.com/](https://EINPresswire.com/) -- [Kore Digital Mining Ltd](#), a U.K. based Bitcoin mining company, announced today that a further \$150,000 has been invested into the business from existing seed investors.

This adds to the initial \$100,000 raised upon creation of the company back in May 2023.

Derek Nisbet, the Founder & CEO, said - "We are thrilled to receive this additional seed capital from our loyal investors and this will enable us to grow our mining operations substantially, over the next few months."

The seed capital will be used to purchase the latest innovations in mining hardware, including:-

5 x Antminer S21 200 Th/s Miners, and
10 x Whatsminer M66S 288 Th/s - Immersion Cooled Miners.

These are the latest and most efficient miners on the market today and will stand Kore in good stead following the Bitcoin halving cycle and new 4 year epoch.

The new mining hardware will increase Kore's hash rate threefold to 6 Ph/s.

About Kore Digital Mining Ltd.

Kore Digital Mining Ltd is a U.K. based Bitcoin mining company focused on growing its hash rate and increasing infrastructure capacity with its global partners.

Kore's mission is to provide technological resources on the Bitcoin network, enabling added

blockchain security and increased decentralization. Visit our website at www.koredigitalmining.com
