

# US Fertility recognizes National Infertility Awareness Week with free educational events

LOS ANGELES, CALIFORNIA, UNITED STATES, April 16, 2024

/EINPresswire.com/ -- US Fertility, the United States' largest partnership of physician-owned fertility practices, recognizes National Infertility Awareness Week (NIAW) April 22-26, 2024, by offering a series of free webinars and other practice-specific events for patients and prospective patients nationwide.

The logo for US Fertility, with "US" in a purple-to-blue gradient and "Fertility" in a solid dark blue, both in a bold, sans-serif font.

NIAW is a yearly initiative founded by [RESOLVE: The National Infertility Association](#), to encourage people to act as their own infertility advocates and to educate legislators and the public about the impact of infertility within their community. US Fertility partners with RESOLVE to further its mission of broadening awareness of infertility and supporting those facing infertility with compassionate support and information.

"US Fertility is dedicated to providing patient-centered care, and NIAW is a special time each year to expand upon that and help our patients feel educated, empowered, and most of all, that they are not alone," shares [Kate Devine, M.D.](#), Medical Director and Chief Research Officer at US Fertility. "Through our expansive network of over 100 clinic locations and 32 IVF labs, our patients have access to the collective expertise of a world-class research team, who are driving innovation and advancements in reproductive medicine every day, which ultimately leads to better outcomes for our patients as they look to build their families."

This year's theme from RESOLVE is "Leave Your Mark," which encourages patients – past and present – as well as care team members and anyone supporting someone facing infertility to leave a lasting mark during NIAW to bring awareness of infertility, normalize the different paths to parenthood, and ultimately make family-building treatment options more accessible.

US Fertility's NIAW 2024 events are hosted by physicians of the network's 5 partner practices. They are free and open to the public, though individuals must register:
