

Lazer Logistics rises 13-spots to rank 77 according to the Transport Topics 2024 Top 100 Logistics Companies list

Despite the soft freight market conditions that have been placing financial strain on third-party logistics providers for the past couple years, Lazer rises up.

ALPHARETTA, GA, UNITED STATES, April 16, 2024 /EINPresswire.com/ -- Transport Topics released

We are proud to be recognized in Transport Topics' prestigious Top 100 list for another year, a testament to our team's unwavering commitment to excellence, even amidst the market's headwinds."

Adam Newsome

its annual Top 100 list of the largest logistics companies in North America based on full-year gross revenue. Once again, Lazer Logistics has been recognized as ranking 77th among all third-party logistics providers competing in this market. The list features the industry's top freight brokerage firms, air and ocean freight forwarders, dry storage and refrigerated warehouse operators, and dedicated contract carriers.

"Soft freight market conditions have been placing financial strain on third-party logistics providers for the past couple of years with an oversupply of truck capacity driving down

rates and squeezing brokers' margins," said Seth Clevenger, managing editor of features and multimedia at Transport Topics. "Despite this challenging business environment, the industry's top 3PLs have continued to drive improvements in supply chain efficiency for their shipper customers."

Lazer Logistics CEO Adam Newsome added, "We are proud to be recognized in Transport Topics' prestigious Top 100 list for another year, a testament to our team's unwavering commitment to excellence, even amidst the market's headwinds. Our ranking at 77 is not just a number—it reflects our strategic adaptability and relentless pursuit of delivering unparalleled value to our clients. In a time when the logistics industry is pressed on all sides by soft market conditions and tightening margins, Lazer Logistics stands firm in our mission to drive forward with innovative solutions that redefine supply chain efficiency."
