North Carolina author and Child/Adolescent Psychiatric Registered Nurse writes books offering valuable insights with sensitivity and compassion.

VANCOUVER, BRITISH COLUMBIA, CANADA, April 17, 2024 /EINPresswire.com/ -- "Me Too!: A Story About Inappropriate Touching/We Have to Begin to Teach Early" is a poignant tale narrated by a young girl who has experienced sexual molestation. Despite the delicate nature of the subject matter, the author, drawing from her extensive experience as a pediatric and adolescent Psych Unit supervisor, assures readers that the content is crucial for young minds. With the prevalence of hidden agendas in today's society, it is essential to educate children early about personal boundaries and the importance of speaking up when faced with such situations. This book serves as a wake-up call to parents and society, highlighting the long-lasting impact of inappropriate behavior and the necessity of equipping children with the knowledge and tools to protect themselves. Wright encourages readers to break the silence surrounding sexual exploitation in families, homes, schools, and communities.
