

Mount Laurel Animal Hospital Introduces Breakthrough Equipment for Treating Pets with Eye Issues

This breakthrough technology revolutionizes the treatment of eye conditions, such as glaucoma, in pets.

MOUNT LAUREL, NEW JERSEY, UNITED STATES, April 17, 2024 /EINPresswire.com/ -- [Mount Laurel Animal Hospital](#), one of the leading veterinary hospitals in the country, is proud to announce the

“

With this breakthrough technology, we can offer pets with glaucoma a more effective and compassionate treatment option, improving their quality of life and overall well-being.”

Dr. Andrew Enders

addition of the state-of-the-art EndoLaser Cyclophotocoagulation (ECP) equipment to its [ophthalmology](#) services. This breakthrough technology revolutionizes the treatment of eye conditions, such as glaucoma, in pets.

Glaucoma is a serious and often painful eye condition that can lead to vision loss and discomfort in dogs and cats. With the introduction of the EndoLaser Cyclophotocoagulation, Mount Laurel Animal Hospital is committed to providing the most advanced and

compassionate care to improve the lives of animals suffering from this condition.

The EndoLaser Cyclophotocoagulation is cutting-edge equipment that uses laser technology to target and treat the underlying cause of glaucoma in pets. This procedure works by precisely targeting and reducing the production of fluid in the eye, thereby alleviating the pressure that causes pain and vision impairment. By offering this advanced treatment option, Mount Laurel Animal Hospital demonstrates its dedication to providing the highest standard of care for pets with eye issues.

[Dr. Andrew Enders](#), a highly esteemed and board-certified ophthalmologist at Mount Laurel Animal Hospital, expresses his enthusiasm about the newly acquired equipment, saying, "The addition of the EndoLaser Cyclophotocoagulation to our ophthalmology services marks a significant milestone in veterinary medicine. With this breakthrough technology, we can offer pets with glaucoma a more effective and compassionate treatment option, improving their quality of life and overall well-being."

Mount Laurel Animal Hospital's ophthalmology services have long been recognized for their excellence. Led by Dr. Enders, the hospital's team of skilled veterinarians and technicians are dedicated to providing comprehensive eye care for pets, including diagnosis, treatment, and surgery. Their commitment to staying at the forefront of veterinary ophthalmology ensures that pets receive the best possible care for their eye conditions.
