Konstant Peddles Up To Become One amongst Top React Native App Development Companies

Konstant Infosolutions is overwhelmed to be recognized among Top React Native App Development Companies by Mobile App Daily.

UNITED STATES, April 18, 2024 /EINPresswire.com/ -- React Native is a framework for building native apps using React. It is neither new, neither unknown. It is quite robust, easily adaptable, and widely used by hybrid developers worldwide. When one codebase is used on multiple platforms, it leads to cost-effectiveness, fast deployment, code reuse, reducing effort, quicker development, and ultimately reduction in cost. That's a blissful mix required as a major ingredient in an ideal cross platform app development framework.

React Native Inception

It was initiated by Facebook, exploring the existing JavaScript skills to facilitate cross-platform mobile app development. React Native continues to evolve and is being used for building cross-platform applications, attractive user interfaces (UI's). Popular examples of apps build with React Native include: (1) UberEats, (2) Bloomberg, (3) Facebook, (4) Instagram, (5) SoundCloud, (6) Airbnb, (7) Pinterest, (8) Discord, (9) Skype, (10) Flipkart, and (11) Messenger;

React Native is egressing as a non-challenging option for mobile app development in 2024 because it is a (1) JavaScript based + (2) Cross platform + (3) framework for speeding up mobile application development. It works in coherence with (1) Expo, (2) TypeScript, (3) Expo Router, (4)

Jest, (5) React Query, (6) MMKV, (7) Native Wind, (8) Reanimated, (9) Sentry. It also takes advantage of intelligent debugging tools and error reporting. About Konstant's Accomplishment
