

Dr. Usha Rajagopal Expands V Suite Services, Setting New Standards in Cosmetic Vaginal Rejuvenation

SAN FRANCISCO, CALIFORNIA, UNITED STATES , April 23, 2024 /EINPresswire.com/ -- [Dr. Usha Rajagopal](#), a San Francisco based plastic surgeon and trailblazer in vaginal rejuvenation with nearly two decades of experience, continues to lead the way in aesthetic gynecology. While demand for vaginal rejuvenation procedures, including labiaplasty, has surged in recent years, Dr. Rajagopal has been setting new standards in this field for almost two decades.

In the ever-evolving realm of cosmetic procedures, one of the most significant trends is the remarkable growth of cosmetic vaginal surgery. [From 2012 to 2018 alone, there has been a staggering 262% increase](#) in popularity, with procedures soaring from 3,521 to an impressive 12,756. This surge underscores the persistent demand for vaginal rejuvenation and reflects a societal shift toward embracing aesthetic enhancements in plastic surgery.

Dr. Usha Rajagopal attributes the surge in demand for cosmetic vaginal surgery to various factors shaping contemporary beauty ideals and cultural perceptions. The accessibility of before-and-after photos online has empowered individuals to explore the transformative possibilities of these procedures. Additionally, mainstream media's growing influence and increased female viewership of explicit content have raised awareness and acceptance of intimate aesthetic concerns. Evolving grooming practices, like the Brazilian wax, have also heightened self-awareness, prompting more individuals to seek personalized solutions through cosmetic vaginal surgery. Dr. Usha Rajagopal remains committed to providing compassionate and expert care amid this evolving landscape, ensuring patients achieve both aesthetic satisfaction and improved quality of life.

With an extensive portfolio of over 2,000 labiaplasties, Dr. Rajagopal has expanded her [V Suite](#)

Plastic Surgeon Dr. Usha Rajagopal

service offerings to include a range of cutting-edge vaginal rejuvenation procedures, including Labiaplasty, Revisional Labiaplasty, Vaginal Tightening, Femilift and others. These procedures cater to various needs, addressing concerns related to pain, vaginal tightness, sexual dysfunction, urinary incontinence, aesthetics, or self-consciousness.

"Labiaplasty, a surgical procedure designed to enhance both appearance and comfort by modifying the size of the labia, has become a transformative solution for thousands of women," said Dr. Usha Rajagopal, a plastic surgeon and the medical director of the San Francisco Plastic Surgery and Laser Center.

Labiaplasty, a cornerstone of her practice, addresses both functional and aesthetic concerns by surgically modifying the labia, providing women with newfound confidence and comfort. Revisional Labiaplasty, another essential procedure, corrects and enhances the results of previous labiaplasty surgeries, ensuring optimal outcomes and patient satisfaction. Femilift rejuvenates vaginal tissues, offering relief from issues such as laxity and dryness, ultimately enhancing overall vaginal health. V-Tightening, a specialized service within the V Suite, addresses concerns related to vaginal laxity, providing women with a tailored solution to restore firmness and sensation.
