

# D-Central Technologies Announces Strategic Partnership with GoBrrr.me to Expand 3D Printing Offerings

*D-Central partners with GoBrrr.me to expand its 3D-printed Bitcoin gadgets line, boosting open-source mining support across North America.*

MONTREAL, QC, CANADA, April 18, 2024 /EINPresswire.com/ -- [D-Central Technologies](https://www.dcentral.ca), Canada's premier ASIC repair hub and a leader in the bitcoin mining sector, is thrilled to announce a new strategic partnership with GoBrrr.me, an innovator in 3D-printed Bitcoin gadgets and DIY kits. This collaboration signifies a pivotal expansion in D-Central's product lineup and underscores its commitment to supporting the Bitcoin community's burgeoning DIY and open-source segments.

D-Central and GoBrrr.me Collaboration

Since its inception in 2016, D-Central has carved out a stellar reputation for reliability and expertise in ASIC repairs, [bitcoin mining hardware](#) resale, and hosting services across Quebec and Alberta. In 2023, D-Central ventured into the 3D printing industry, rapidly progressing to develop proprietary, in-house designs that cater to an expansive customer base, from individual ASIC owners to large-scale mining operations.

“

Empowering the community, our products are by the plebs, for the plebs, ensuring everyone can innovate.”

*Jonathan Bertrand, CEO, D-Central Technologies*

Strategic Alliance to Empower North American Bitcoin Enthusiasts

Through this partnership, D-Central becomes the primary North American distributor for [GoBrrr.me's](#) products, enhancing its already diverse portfolio with unique items that promote security, privacy, and operational efficiency in Bitcoin management. D-Central's customers now have exclusive access to GoBrrr.me's acclaimed 3D-printed products, including bespoke Bitcoin

node cases, mining rig accessories, and secure wallet storage solutions.

## Mutual Commitment to Innovation and Community Support

Both D-Central and GoBrrr.me share a profound commitment to the Bitcoin ethos—prioritizing privacy, security, and the empowerment of individuals through technology. This partnership not only diversifies D-Central's offerings but also strengthens its role in the community by supporting grassroots initiatives like Open Source Miners United (OSMU) and enhancing the capabilities of hobbyist and professional miners alike.

## Investing in the Future of Bitcoin and 3D Printing Technology

A portion of the proceeds from GoBrrr.me's product sales through D-Central will be reinvested into continuous development and innovation, ensuring that both partners can keep providing cutting-edge, reliable solutions. D-Central's support extends to the broader Bitcoin community, encouraging and facilitating the shift towards more decentralized and user-empowered financial technologies.

## A Vision for Comprehensive, Integrated Solutions

"Partnering with GoBrrr.me allows D-Central to offer a more holistic range of products and services that are tailored to the modern Bitcoin enthusiast's needs," said Jonathan Bertrand, Founder and CEO of D-Central Technologies. "This partnership aligns with our vision to simplify and secure Bitcoin management and mining for everyone, from individual users to large-scale operations."

D-Central's role as a distributor of GoBrrr.me products is a testament to its leadership in the sector and its dedication to embracing innovative solutions that reinforce the security and efficiency of Bitcoin technologies.

## Unleashing Creative Potential with 3D Printing Innovations

D-Central's 3D printing division has rapidly evolved over the past year, distinguishing itself with innovative, in-house designs that resonate with the needs of the modern tech enthusiast. By integrating GoBrrr.me's specialized 3D-printed products, D-Central not only broadens its technological footprint but also offers an enriched array of customizable and versatile Bitcoin-related gadgets. These products are not just tools but transformative assets for Bitcoin enthusiasts, enabling them to secure, manage, and personalize their cryptocurrency apparatus with precision and artistic flair.

Further enhancing its product lineup, D-Central has formed strategic alliances with other notable innovators in the field, including Cryptocloaks and AltairTech. These partnerships have allowed D-Central to diversify its offerings with a variety of essential tools and accessories, all designed to

facilitate the secure and efficient management of digital assets. Each collaboration is structured around a commitment to not only deliver outstanding products but also to support ongoing development through remittances to the original creators, ensuring that the pioneers of these innovative tools continue to develop and refine their creations.

This collaborative ecosystem fosters a thriving community of developers and users, cementing D-Central's role as a catalyst in the world of cryptocurrency hardware. By supporting these partnerships, D-Central not only enhances its own offerings but also contributes to the sustainability and growth of the broader Bitcoin and cryptocurrency technology landscape.

### Empowering the Bitcoin Community through Educational Collaborations

Beyond just selling products, this partnership is about empowering individuals. D-Central and GoBrrr.me are committed to providing educational content that demystifies the process of setting up and maintaining Bitcoin hardware. Through tutorials, DIY kits, and collaborative workshops, both entities aim to enhance their users' understanding and skills, promoting a more informed and self-sufficient community.

### Looking Forward: What This Partnership Means for the Future

The collaboration between D-Central and GoBrrr.me is not just a momentary alignment but a strategic move towards a shared vision for the future of cryptocurrency. As this partnership flourishes, customers can expect ongoing innovations, including next-generation 3D-printed devices that integrate seamlessly with Bitcoin technologies, continued enhancements to user security, and robust support systems that enrich the user experience. This alliance is poised to transform the landscape of Bitcoin mining and management, setting a benchmark for quality and innovation in the industry.
