

# Skillable ranked as the leader in hands-on labs for the 11th time in the G2 Spring 2024 report

*Skillable also earned the Momentum Leader badges for the Virtual IT Labs and Technical Skills Development categories, signaling its growth in these sectors.*

NEW PORT RICHEY, FLORIDA, UNITED STATES, April 18, 2024

/EINPresswire.com/ -- [Skillable](#), the

pioneer in hands-on labs that build and

validate skills, earned 35 G2 badges in the Spring 2024 report with specific recognition for its high-quality technical skills development and global growth. The total G2 badge count for Skillable since Fall 2020 is now 249.

“

Hands-on labs are an essential tool for any learner in practicing and validating their skills, ensuring that they are ready to perform new skills on the job.”

*Chris McCarthy, CEO of Skillable*

With the latest report, Skillable remains a leader in the Virtual IT Labs category for the 11th consecutive time and received the “Best Results” badge for their ability to deliver hands-on labs. Skillable also earned the Momentum Leader badges for the Virtual IT Labs and Technical Skills Development categories, signaling its growth trajectory in these sectors.

Chris McCarthy, Chief Executive Officer of Skillable, comments, “We have been investing significantly in Skillable’s global presence and the G2 Spring 2024 report,

with its focus on EMEA, APAC and LATAM, shows we are heading in the right direction with our customer satisfaction and adoption in these regions. Hands-on labs are an essential tool for any learner in practicing and validating their skills, ensuring that they are ready to perform new skills on the job.”

As one Skillable user and G2 reviewer stated, “[Skillable’s] ability to recommend personalized courses based on my learning history and goals is incredibly helpful. This tailors my learning experience and ensures I’m always aligned with the industry’s latest trends and requirements. Theory is essential, but practical application solidifies understanding. Skillable’s courses often come with hands-on projects, simulations or labs that provide real-world application of the

theoretical knowledge.”
